

# What A Life

John Summit

Oh, tell me how you do  
It's really nice to meet you  
I saw you in the line  
And we were catching eyes too

What a life, what a time  
To be free  
What a life, what a time  
To be you and me

You hit me in the feels  
My villa's in the hills  
I know you feel my vibe  
You're dancin' by my side

What a life, what a time  
To be free  
What a life, what a time  
To be you and me  
What a life, what a time  
To be free  
What a life, what a time  
To be free

What a life

What a life, what a time  
To be free  
What a life, what a time  
To be you and me  
And me, and me  
And me, and me  
What a life, what a time  
To be you and me
