

# We Will

John Sykes

We will  
What you got  
We want it  
Coming out to get it  
Don't forget be ready  
You can run  
But don't forget you can't escape it baby  
Heard it said about  
That you're the toughest crew in town  
So we're gonna take you down the hard way  
Won't give up  
We get up  
We won't stop just like a hurricane coming  
Saying we will  
Talking 'bout we will  
We won't take it no more  
Saying we will carry it home  
So you think you're better  
Better run and hide forever  
Cause you know we're coming out to get you  
Planet earth we're representing  
No way you can take it  
Complicate or even fake it  
We're gonna take you down the hard way  
So load up  
Put up  
Step up  
Just like a hurricane coming  
Saying we will  
Talking 'bout we will  
We won't take it no more  
Singing we will  
Carry it home  
(solo)  
Funny how we fight with one another  
Separate tribes  
But if our planet was attacked  
We'd all be covering each other's back  
See we're one big family  
But we can never all agree  
We're gonna have to learn the hard way  
So get up cause there's a hurricane coming  
Saying we will  
Talking 'bout we will  
We won't take it no more  
Singing we will carry it home  
Saying we will  
When will we ever learn talking 'bout we will  
How long until we burn  
Telling you that we will  
Carry it home

(repeat choruses)
