

Carina Constellation

John Vanderslice

Summer had to go
With that died evening glow
We swung the courthouse door
And found the car and drove it slowly home again

Look out, look up and say
Carina constellation
Look out, look out
Look up and say
Carina constellation

Two lane county road
We always drove a different way home
That night was inked in black
The squint escapes a terrible attack

Look out, look up and say
Carina constellation
I know somewhere, somehow we'll pay
Carina constellation
Look out, look out
Look up and say
Carina constellation

Summer had to go
And with it that evening glow
Look out, look up and say
Carina constellation
I know somewhere, somehow we'll pay
Carina constellation
I thank what we've done, I softly pray
Carina constellation
Look out, look out
Look up and say
Carina constellation
