Continuation

John Vanderslice

how could the killer keep killing
now that the killer's dead?

the killer's way was known to no one
and the telltale clues are locked
inside the detective's head

he's been dead for days
still killing us anyway

there is me and rieger
and thomson and foley only
and thomson and foley don't fit the profile

got a break in the case
soon I'm going to make him
I'll wait until he kills again
then I'm gonna come down

how could the killer keep killing
now that the killer's dead?

so detective rieger stands alone
as the suspect killer, he was a good cop
but always a little off

got a break in the case
soon I'm going to make him
I'll wait until he kills again
then I'm gonna come down

so I shadowed rieger until
he became a part of me

after weeks of pursuit
we locked up in a feedback loop
he was following me too
