

## Greyhound

John Vanderslice

I'm back from the coast  
I couldn't make it alone  
all the brightest I met  
were just sick and broke

the ones you had conviction  
were all the wrong types  
without any friends in park city  
how could I survive?

tell me what to fight for  
tell me what's the right war  
tell me what I'm here for
