

Anything

John Waite

Anything you want

It's the simplest of dreams
But it means a lot
So I'm down on my knees
For the heart you've got
It's a shot in the dark
But I feel that spark
And that's enough
To make you believe me

You're everything I want
You're everything that I need
And I'd do anything
To get to you
(Everything)
So anything you need
Then that's the thing that I'll be
(Everything)
And I'll do anything
To make you see

Anything
Yeah yeah yeah

From the time that it takes
To wake up, I find
That you're in my life
In the back of my mind
From hello to goodbye
It was there in your eyes
Right from the start
You believe me

(Everything)
You're everything I want
You're everything that I need
And I'd do anything
To get to you
(Everything)
So anything you need
Then that's the thing that I'll be
(Everything for you)
And I'll do anything
To get to you

You're in the mirror
Looking back
Walk on the pavement, yeah
In the cracks, you're
Everywhere

And I'd do anything
To get to you
Anything, baby

(Everything)

You're everything I want
You're everything that I need
(Everything for you)
And I'd do anything
To get to you
(Everything)
So anything you need
Then that's the thing that I'll be
(Everything for you)
And I'll do anything
Anything at all

(Everything)
'Cause you're everything I want
You're everything that I need
(Everything for you)
And I'd do anything
To get to you
(Everything)
So anything you want
That's a thing that I'll be
(Everything for you)
And I'll do anything
To get to you

I'll do anything for you
(Anything)
Anything, anything for you
(I'll do anything)
I'll do anything
Anything at all
(Anything)
I'll do anything
