

## Give Me A Sign

John West

I was born to be the restless kind  
No patience for wastin' time  
Start thisikin' 'bout the wars we wage  
No use... Jest turn the page  
Silent tear, endless fear

Don't wanna lose the way we are  
So I've been waitin' for...

A sign from heaven above me  
A sign that comes from the stars  
A white light to shine down upon me  
I've waited .so long  
... Give me a sign

I've been caught inside a mystery  
Black magic never got to me  
Always payin' for eternal sin  
Been around and back again

Don't wanna lose, the way we are  
So I've been waitin' for...

A sign from heaven above me  
A sign that comes from the stars  
A white Sight to shine down upon me  
I've waited - Oh Lord  
... Give me a sign..
