

Lost in Time

John West

All your life, in fear
You walk among humanity every year
And in your mind, it's clear
You can't be who you want to be
Not here, reality lives so near

It's a matter of time and time is on the other side
Standing out in the cold, no hope
Your hope is what you left behind
Haunting visions in your mind, you can't run away
From the hands of time
Can't you feed at all? Can't you see at all?

Lost in time can't you feel it
Read your mind there's no signal
Everything's gone blank now your lost in time
Lost in time, can't you see it
All your life lost the meaning
Everything's come clear, now your lost in time
Lost in time

Ray of hope so near and
You're so far away from here
It's a matter of mind
Your mind is so consumed by fear
Haunting visions in the night, you can't run away
From the sands of time
Thought you knew it all, I see through it all

Lost in time can't you feel it
Read your mind there's no signal
Everything's gone blank now your lost in time
Lost in time, can't you see it
All your life lost the meaning
Everything's come clear, now your lost in time
Lost in time

All your life, in fear
You walk among humanity every year
And in your eyes it's clear
That your consume by fear
Haunting vision of mankind you can't run away
From the hands of time
Can't you feel at all? I see through it all

Lost in time can't you feel it
Read your mind there's no signal
Everything's gone blank now your lost in time
Lost in time, can't you see it
All your life lost the meaning
Everything's come clear, now your lost in time
Lost in time
