

One Way

John West

Lost and I pulled you in
I gave you my all, then you left me here within
Did you fulfill your goal?
Ripped and teared at my soul

I give to you and you take from me
Why is your love just one way?
And all the things you say you've done for me
Still makes me feel it's one way

You sent me fallin', I can't break away
Hear me callin'
Did you fulfill your dreams
Scared and alone my heart bleeds

I give to you and you take from me
Why is your love just one way?
And all the things you say you've done for me
Still makes me feel it's one way

Love is a two way street, with you it's one way
You can't make my life complete, someday you may
Won't you even try to give it, give it back to me
Love is a two way street with you it's one way

Lost and I pulled you in
I gave you my all, then you left me here within
Did you fulfill your goal?
Ripped and teared at my soul

I give to you and you take from me
Why is your love just one way?
And all the things you say you've done for me
Still makes me feel it's one way

I give to you and you take from me
Why is your love just one way?
And all the things you say you've done for me
Still makes me feel it's one way

Love is a two way street, with you it's one way
You can't make my life complete, someday you may
Won't you try to give it, give it back to me
Love is a two way street with you it's one way
