

Permanent Mark

John West

I don't want no anesthesia, Just give it to me straight
I can see the needle's sharpened,
and I can hardly wait

You know pain can be pleasure
When ya know it'll last forever
Push your ink into me

Chorus
Pierce me, tattoo me, leave a permanent mark
Change me forever, leave a permanent mark

I don't want to numb the feelin',
my skin's the canvas for your art
Like a junkie who's addicted,
it's hard to stop it once you start

You know pain can be pleasure
When ya know it'll last forever
Push your pin into me

Chorus
Pierce me, tattoo me, leave a permanent mark
Change me forever, leave a permanent mark

Give me some color!
A new place to hang a ring
Make it last forever!
Permanent mark...

I don't want no anesthesia, Just give it to me straight
I can see the needle's sharpened,
and I can hardly wait

You know pain can be pleasure
When ya know it'll last forever
Push your ink into me

Chorus 2x
Pierce me, tattoo me, leave a permanent mark
Change me forever, leave a permanent mark
