

Slow Down

John West

Slow down, you're going too fast
We got to make it stain us
Out of control
Let's just explore
Think of the times we wasted

I'm on my own
Not coming home

Slow down, you're going too fast
We got to make it stain us
Out of control
Let's just explore
Think of the times we wasted

I'm on my own
Not coming home

Too tired of all the worries
Sometimes no need to [?]
We're going down
Cast to the ground
All things one day are ending
Can't call some new beginnings

And it's alright, yeah
And it's alright, and it's alright
And it's alright, yeah yeah
And it's alright, yeah yeah
And it's alright
And it's alright
And it's alright
