

## I'm Done

Johnny Apple

Settle down, my dear  
I've got something I'd like you to hear  
Make yourself at home, this might take long  
Sit down over there, remember that you use to care  
We could be here for days

'Cause you throw all the secrets and magic you own into this bag at my feet, saying you'll look after it.  
Now I'm mistake stay in this sparkle the rest of my days, watching your life slip away oh as my back nearly breaks oh I-I-I'm done

Bring a chair, draw it near  
I've got something I'd like you to hear  
It's your turn to carry the weight  
All these years I've been here, holding your secrets so dear  
Now I'm giving them back and I can't wait

'Cause you throw all the secrets and magic you own into this bag at my feet, saying you'll look after it.  
Now I'm mistake stay in this sparkle the rest of my days, watching your life slip away oh as my back nearly breaks oh I'm done  
...

Will you let me go?  
Will you make it on your own?  
I can't take no more  
I've been wondering what I came here for...

Sit down over there remember that you use to care

'Cause you throw all the secrets and magic you own into this bag at my feet, saying you'll look after it.  
Now I'm mistake stay in this sparkle the rest of my days, watching your life slip away oh as my back nearly breaks

Oh I-I-I'm done
