

I Think She Knows

Johnny Burnette

I think she knows that I am seein' you
I think she knows that I'm not bein' true
Don't wanna hurt her, don't wanna make her cry
But what can I do?

She makes believe that things are still the same
But I can't play this kind of cheatin' game
I know she needs me, but I'm in love with you
So what can I do?

No matter what I say to her, I'm gonna break her heart for her

How can I tell someone as nice as her I don't love her anymore?

I think she knows our love has reached the end
I only hope that we can still be friends
I'll have to tell her, I'll have to let her know
What else can I do?

I'll have to tell her, I'll have to let her know
(repeat & fade):
What else can I do?
