Johnny Cash

Campers bikes and mobile homes cars and pickup trucks
Slacks and '59 hairdoes sideburns spears and ducks
There's lone star pearl and fried chicken and one big cloud of
smoke
Plug it in and turn it on and the music goes for broke
Down at Drippin' Springs down at Drippin' Springs
There's Willie and Waylon Kris and Tom have you heard Gatlin si

Well the Texas sun is low and hot upon the chaparral
It would be one ideal spot for God to put his hell
The most beloved cowboys songs echoe cross the plains
T Texas Tyler ain't forgotten next year y'all come again
