

Happy to Be With You

Johnny Cash

Happy to be with you happy to be with you
Happy to be with you bound to follow you
Somewhere someone above sends you to me for me to love
Hearts can tremble and shake hearts can shutter and break
I give more than I take cause I'm happy to be with you
Happy to be with you happy to be with you
Good times outweigh the bad count the good ones we've had
We have our ups and downs but the good times come around
Nickels and pennies are few don't have a fortune for you
Love you yes I do and I'm happy to be with you
Happy to be with you happy to be with you
