

# Have You Ever Been To Little Rock?

Johnny Cash

Have you ever been to Little Rock?  
Have you ever been to Little Rock?  
Those Arkansas women  
Born with beauty and grace

Up in the Ozark Mountains  
The one they call Betty Jean  
You can see God's country  
Put a smile on your face

It's the land of my family  
Down in Cleveland County  
It's where my mama and daddy were born  
Where the singin' pines grow

They got some hot spring water  
Down in the Ouachita country  
Wash away your misery  
You feel like Henry Ford

Right off the scenic highway  
Shake the hand of a farmer  
Have a cool watermelon that weighs a hundred pounds  
And in the Mississippi Delta land  
They're growing rice and cotton  
In the fields all week long  
Saturday night in town

Yes, I love my people  
And I'm proud of my raisin'  
Sweet Arkansas memories until they leave me down

Have you ever been to Little Rock?  
Have you ever been to Little Rock?  
Those Arkansas women  
Born with beauty and grace
