

# It Could Be You

Johnny Cash

If you should meet some lonely soul  
Who on this earth can't reach his gold  
And he's travelin' down the road so dark and dim

Lend the hand, say a prayer  
Give a smile that he might share  
But for the grace of God it could be you instead of him  
(But for the grace of God it could be you instead of him)

Befriend each stranger in the night  
Help to make his burdens light  
Lift up the fallin' ones and be a friend  
(Be a friend)

Shed a tear, share a sight  
Share his fears don't pass him by  
But for the grace of God it could be you instead of him  
(It could be you instead of him)

Shed a tear, share a sigh  
Share his fears don't pass him by  
But for the grace of God it could be you instead of him  
(It could be you instead of him)
