

# Nobody Cared

Johnny Cash

It all started out in Illinois with a woman that I thought was  
just my own  
She saw a new tie and a new shirt kicked her heels and flipped  
her skirt  
Slammed that door and left me standing all alone  
They had a love nest in his new club there went my wife all ove  
r town  
As I watched it I got green and with my drinkin' I got mean  
Stuck a match and burned that club right to the ground

And I spent nine months in the hole lyin' there in solitaire  
And nobody cared nobody cared nobody cared

There was a screw out in the hall that had me backed up to the  
wall  
Escortin' me with a water pistol in that 36 degrees  
With me shiverin' to my knees I ain't gonna forget about that w  
ater pistol  
If I've been bad you think that'll make me better  
If I've been a sinner you think that'll make me a saint no it a  
in't  
Freedom come and I found him made him take off  
All his clothes and socks and shoes  
Had him scramblin' on the floor tryin' to make it to the door  
Cryin' crawlin' screamin' bloody murder too  
Well I didn't really kill him though over his whole world there  
hung a paw  
I made him bend over on his knees and to his screams of Owen pl  
ease  
Took my turpentine water pistol and I let him have it all

Cause I spent nine months...  
And nobody cared nobody cared nobody cared
