Oh What A Good Thing We Had

Johnny Cash

Sunshine and showers and everything comin' up daisies Oh what a good thing we had gone bad oh what a good thing we had $\rm d$

Driveins and picnics end every day was Saturday
Oh what a good thing we had gone bad oh what a good thing we had

The whole wide world was jealous we wouldn't hear a thing they'd tell us

Never did need any money everything was milk and honey
Oh long walks by the river talkin' bout living together
Oh what a good thing we had gone bad oh what a good thing we had
d

Long weeks of waitin' and livin' for the day we marry Oh what a good thing we had gone bad oh what a good thing we had d

Happiness and laughter we found everything we were after Oh what a good thing we had gone bad oh what a good thing we had

The whole wide world was jealous... Oh what a good thing we had gone bad oh what a good thing we had d
