

# Forever

Johnny Drille

I think of you tonight  
You're always on my mind  
It's a miracle that you're mine  
I can see it in your eyes  
I see it deep inside  
Under sun or rain  
You will be by my side, yeah yeah ah

Dem tell me things about you  
But I will never doubt you, my baby boo  
Girl you are sent from heaven  
I can't believe I found the sunshine in my life

Stay with me forever  
Our love will last forever  
No man can put asunder  
What God has joined together  
Stay with me forever  
This love will last forever  
No man can put asunder  
What God has joined together

Walking down the aisle  
Make me wanna cry  
This angel is about to be mine  
Finally, you are for real  
No longer that girl in my dreams  
My baby dey here with me

So if dem tell you things about me  
Baby believe them  
I'm a very good guy  
Yeah, yeah yeah  
And if I tell you, say I love you  
My lady, do believe me  
I no dey lie yeah, yeah yeah

Stay with me forever  
Our love will last forever  
No man can put asunder  
What God has joined together  
Stay with me forever  
This love will last forever  
No man can put asunder  
What God has joined together

All my love, all yours  
Now and forevermore  
I'll be your man, I'll be yours  
Take my heart, take it all  
All my love, all yours  
Now and forevermore  
I'll be your man, I'll be yours  
So you can have it all baby

You and me forever  
Our love will last forever

No man can put asunder  
What God has joined together  
Stay with me forever  
This love will last forever  
No man can put asunder  
What God has joined together

Stay with me forever  
Our love will last forever  
No man will put asunder  
Me and you will be together  
Stay with me forever  
This love will last forever  
No man will put asunder  
What God has joined together
