

Shine

Johnny Drille

Have you seen the sun?
Have you seen the moon?
They are shining light for you
And have you seen the stars
Shining in the dark
'Cause God is still watching you

Life is beautiful, however you choose
Be grateful for life
Love is beautiful, whenever I'm with you
What a time to be alive

Ain't no matter the condition
Believe in your heart and you go dey alright
No forget say after rainfall
And after the dark, the sun go shine

Keep your heart my friend, don't lose yourself
In the morning time the sun go shine
Do your best but don't lose yourself
'Cause in the morning time the sun go shine

Have you ever seen the love in a mother's eyes
When she holds her little one?
And have you seen the joy in a father's pride
In a son he truly loves?
Where ever you go, remember
Make you shine your light for each December
Never lose your souls
Whatever you do, remember
Stay humble and cool your temper
Don't forget your own

'Cause ain't no matter the condition
You just believe in your heart and you go dey alright
No forget say after rainfall
And after the dark, the sun go shine

Keep your heart my friend, don't lose yourself
In the morning time the sun go shine
Do your best but don't lose yourself
'Cause in the morning time the sun go shine

Keep your heart my friend, don't lose yourself
In the morning time the sun go shine
Do your best but don't lose yourself
'Cause in the morning time the sun go

Shine your light
It will show you the road
It will lead you home
Hold on tight and learn to fight
Now that you're on your own, yeah
You go hard sometimes
You go fall sometimes
You won't understand
Devil go dey try

But you go dey alright
You are in safe hands

Ain't no matter the condition
You just believe in your heart and you go dey alright
No forget say after rainfall
And after the dark, the sun go shine

Keep your heart my friend, don't lose yourself
In the morning time the sun go shine
Do your best but don't lose yourself
'Cause in the morning time the sun go shine

Keep your heart my friend, don't lose yourself
In the morning time the sun go shine
Do your best but don't lose yourself
'Cause in the morning time the sun go

The sun will shine
In the morning time, the sun will shine
The sun will shine
It's almost breaking dawn
The sun must shine
The sun will shine
The sun go shine
