

# This Loving

Johnny Drille

You done burst my brain, oh  
I'm no longer searching, oh, I'm certain  
They must think I'm stupid, they must think I'm foolish  
Young and foolish

It's been a long time  
Ooh, I've been searching for a long time  
Glad that I found you at the right time  
Oh, you run in my mind, oh no  
It's been a long time  
Ooh, I've been searching for a long time  
Glad that I found you at the right time  
Oh, you run in my mind

I can't lose this loving, this loving, this loving  
Don't wanna lose this loving, this loving, this loving  
I can't lose this loving, this loving, this loving  
Don't wanna lose this loving, this loving, this loving

I see what I've been missing, been too many seasons  
But I never found the person, person for me  
My mama has been calling, she wanna meet my lady  
We'll make a happy family, baby you and me

We only get to live one life (one life)  
Then I don't wanna waste no time (no time)  
Do you see the stars tonight?  
Maybe it's a sign  
Baby girl, want you to live in my life (my life)  
It's no accident you came by  
Still believe in second chances, but

I can't lose this loving, this loving, this loving  
Don't wanna lose this loving, this loving, this loving  
I can't lose this loving, this loving, this loving  
Don't wanna lose this loving, this loving, this loving

I don't wanna lose this loving, I don't wanna lose this loving  
I don't wanna lose this loving, no, no no  
I don't wanna lose this loving, I don't wanna lose this loving  
I don't wanna lose this loving, oh my baby
