

# I Got You

Johnny Gill

Lust overflows my mind  
As I scope on her figure from behind  
Sensuality is the key to the capture  
As I watch you undress  
I feel the warmth of your breast against my chest  
Thrill me over and over again  
There's something about this woman  
That keeps me holdin' on  
The feeling's so, so strong  
Best believe that I want it all  
As I walk over to ya, I have no fear  
Not a fear in the world  
Let my body move you as the string of your lingerie untwirl  
I start from the bottom and work my way up  
Early morning, afternoon, night to morning, after day

'Cause I got you right here lying on my bed waiting for  
What I plan to do to you (Baby)  
Yes, I plan to dig right through to your mind  
All I want is for you to be obsessed with what I give you  
Then I'll know I can accommodate you again

Oh, oh, again  
Oh, oh, oh, hey, again  
Hey hey hey hey

When I'm with you, I gotta touch you  
It's a feeling deep inside  
When you're present the feeling magnified  
I can see this as I walk you over to my forbidden zone  
Right now this chair's your chair  
And this house, it is your home  
Come over here, baby, and sit down  
I'm gonna take you for a ride around town  
We couldn't tease each other even if we wanted to  
This is something that we've gotta do, oh

(Pressure's getting higher and)  
Oh, gonna get, get, get just a little bit higher  
(Temperature's rising)  
Oh, need your sexual healing again and again and again

'Cause I got you right here lying on my bed waiting for  
What I plan to do to you (Baby)  
Yes, I plan to dig right through to your mind  
All I want is for you to be obsessed with what I give you  
Then I'll know I can accommodate you again

Ooh ooh ooh ooh, yeah yeah, again  
Ooh ooh ooh, oh yeah  
Oh oh oh oh oh oh  
(I got you right here) Oh, I guess I have to come to you, oh  
I got you, baby (Baby)  
I got you right here in my hands  
(All I want is you) I want you to come on  
I want you to come on  
Want you to come back and lay right here by my side

Oh oh yeah
