

# I Know You Want Me

Johnny Gill

Hmm...

Baby just love me  
Don't you try to front  
Cause I know you want me  
I know what you want  
Baby just love me  
Don't you try to front  
Cause I know you want me  
I know what you want

I remember  
It was in the fall of September  
When you gave me call  
You were acting like you only wanted to be friends  
And I asked you, why you want to play me like that

Just get with me tonight  
You know I'll do you right

We don't have to bit around the bush yeah

Is this the way you feel  
Girl let's be real

Baby just love me  
Don't you try to front  
Cause I know you want me  
I know what you want  
Baby just love me  
Don't you try to front  
Cause I know you want me  
I know what you want
