

# Just Another Lonely Night

Johnny Gill

I can see you in each of drop rain  
As it falls all through the night  
Haunting memories keep me awake  
It's been so long since I held you tight

I thought that I had you out of my heart  
But I don't, no  
I imagine you here with me  
But I guess it's gonna be...

Just another lonely night  
And I'm thinking about you  
(Just another lonely night)  
Oh, just another lonely night  
Wanting your love

What can I do in times like this  
When it's you I miss so much  
In the darkness, your voice I hear  
Calling me from deep, deep, deep inside (Johnny)

How can I get you out of my mind?  
Nobody else's touch can make it right  
So I try to forget about you  
Looks like that's something I just can't do

Just another lonely night  
Thinking about you  
(Just another lonely night)  
Oh, just another lonely night  
(Just another lonely night)

I need you to be here with me  
But I guess it's gonna be...

Just another lonely night  
And I'm thinking about you  
(Just another lonely night)  
And it's just another lonely night  
Wanting your love

Oh, it's just another lonely night  
And I can't live without you  
(Just another lonely night)  
Just another lonely night  
Wanting your love

Oh, it's just another lonely night  
(Just another lonely night)  
And it's just another lonely night
