

Mastersuite

Johnny Gill

I know you made plans, but...
Is there anyway possible those plans can be changed?
I wanna take you somewhere where you never been before...

Come in my MasterSuite...

To a place where need and want are the same thing... so I want
you to relax...
And let me be your host... let these double-
doors block out the pain...come with me!

Step into my oasis of love, the door is open girl, to the secre
t world, where anything is possible just as long as it feels go
od...

Let your imagination run free!
I want you to come along with me... come on, girl

Come in my MasterSuite... I can make it alright tonight (alrigh
t, alright) I can make it okay... (I can make it okay...)
Come in my MasterSuite... I can make it alright tonight (oh, ba
by) I can ease the pain... (I can ease the pain)...
Come in my MasterSuite... (will you do that for me baby?)

Dim the lights and let the love begin
I wanna be your host...
Your regular fix-it-man...
I do anything I can to love away the pain
I'm going where no man's gone before
To keep you coming back for more, baby!

(I can make it alright, alright)... I can make it okay... (if
you come on tonight)...
Come in my MasterSuite. (Oh, baby)... I can make alright tonigh
t (I can make it alright tonight...) I can ease the pain...
Ease it my darling... (All you gotta do is just lay your pretty
head on my shoulder)...
and let me make, let me make... let me make you feel real good.

..
Come in my MasterSuite... (Alright... I wanna make you feel goo
d all o-all o-all o-all all over your body...
MasterSuite I need you tonight (I swear I can make everything a
lright) make it okay...

...
Every thing's gonna be alright... in my MasterSuite.
