

One Small Light

Johnny Gill

Something dark in the night is stalking
Like a cat on tender feet
I have fear inside my heart
But nothing is revealed to me

Can I stop a stranger standing by the window?
Can you see? Am I close to jeopardy?

I am one small light
Just a candle in the night
Wondering how to fight a danger that I never see
I am one small light
Trying hard to save my life
Shining out upon the shadow of my destiny

There's a change in your love that's making
Shivers up and down my arms
You are cool in such a way that
I can't put my finger on

If it's true, that's like the wind inside a circle
I wish that I were a beacon in the storm

But I am one small light
Just a candle in the night
Wondering how to fight a danger that I never see
I am one small light
Trying hard to save my life
Shining out upon the shadow of my destiny

Don't know why our hearts should be breaking
Changing right from wrong
But taking my inspiration from the heavens
I will be like the sun, I will shine on

I am one small light
Just a candle in the night
Wondering how to fight a danger that I never see
I am one small light
Trying hard to save my life
Shining out upon the shadow of my destiny (My destiny)
I am one small light
Just a candle in the night
Wondering how to fight a danger that I never see (I never see)
I am one small light (Small light)
Trying hard to save my life (Save my life)
Shining out upon the shadow of my destiny (My destiny)
I am one small light (Small light)
Just a candle in the night
Wondering how to fight a danger
That I never see (I never see)
I am one small light (Small light)
Trying hard to save my life (Save my life)
Shining out upon
The shadows of my destiny (My destiny)

I am one small light (Small light)

Just a candle in the night (In the night)
Wondering how to fight a danger
That I never see (I never see)
I am one small light
Trying hard to save my life
