

# So Gentle

Johnny Gill

Yeah, R.D., kickin' it with my boy J.G  
(So, so gentle)  
And it goes a little somethin' like this

I wanna kiss you in the moonlight (Ha, hey)  
Touch you in the starlight (Yeah)  
Feel you in the candlelight (Hey, yeah, yeah)  
Caress you so gentle (Yeah, yeah, yeah)

Real smooth (Hey)  
Yeah, I like that (So gentle)  
J.G., kick that verse

The sun's gone down, the night is rushing in  
I'm alone, I feel I need a friend  
Someone special that I can call my own  
Are you the one? 'Cause if you are

I wanna kiss you in the moonlight  
Touch you in the starlight (Touch you in the starlight)  
Feel you in the candlelight (Oh)  
Caress you so gentle  
And if you feel it's too tight (Hold me tighter)  
Ooh, it's alright  
Together we can share the night (Share)  
I love you so gentle (I love you so gentle)

Now that you're here, let me set the mood  
The fireplace where I can lay here with you  
(As my nature rise) As my nature rise, we can take it slow  
Just close your eyes and relax

I wanna kiss you in the moonlight (Come on, yeah)  
Touch you in the starlight (Hey)  
Feel you in the candlelight (With the candlelight, baby)  
Caress you so gentle (So gentle)  
And if you feel it's too tight  
(And if you feel that it's too tight) Ooh, it's alright  
(Hold me tight, baby)  
Together we can share the night (Oh baby)  
I love you so gentle (I love you so gentle)

(It's a beautiful thing)  
It's a beautiful thing when we're on flow  
(Just relax, let go)  
Don't worry, I'll take care of you, that's what I'll do  
(And if you let love free)  
I'll never neglect you, I assure you  
Hold me close and take my hand, and close your eyes

I wanna kiss you in the moonlight (Oh)  
Touch you in the starlight (I wanna kiss you, baby)  
Feel you in the candlelight  
(See, I wanna lay you down by the fireplace)  
Caress you so gentle  
(And I wanna touch your body, I wanna caress ya all night long)  
And if you feel it's too tight, ooh, it's alright

(All you gotta do is let me know, and I promise you)  
Together we can share the night (That I'll promise you)  
I love you so gentle (I'm gonna make it light, yeah, come on)

(So, so, so gentle)  
Hey, wrap your body with a lot of love  
(So, so, so gentle)  
Hey, oh  
(I wanna kiss you so, so, so gentle)  
So, let me, let me say it again, yeah  
(So, so, so gentle)  
Everybody, if you got a lot of love, come on, sing

Yeah, pop the cork and take a champagne toast (Toast)  
I'll be your musical mentor doctor, and J.G.'ll be your host (Hey)  
For the evening, so baby, let's begin (Ah)  
We could take turns, makin' moves on the groove  
Man, I keep it hot (Hot), hot like a flame (Yeah)  
And when I hit the spot, I'll have you calling my name  
Like, uh, "Ron, be gentle", as I tap into your mental  
Your physical, subconsciously, I know you want me (Yeah)

I wanna kiss you in the moonlight (Oh, oh)  
Touch you in the starlight (Hey)  
Feel you in the candlelight (I wanna feel you, yeah)  
Caress you so gentle (So)  
And if you feel it's too tight (Oh), ooh, it's alright  
Together we can share the night (We can share our love, baby)  
I love you so gentle

Hey, mmm, hey, come on  
Hey, come on, hey, come on  
Hey, come on, hey, oh, yeah, yeah  
Anything that you want (Ooh, it's alright)  
Anything that you need, yeah  
(Together we can share the night)  
I want to make you feel alright, oh yeah, oh

I wanna kiss you in the moonlight (Oh, oh)  
Touch you in the starlight (Hey)  
Feel you in the candlelight  
Caress you so gentle (So)  
And if you feel it's too tight, ooh, it's alright  
Together we can share the night (Come on)  
I love you so gentle (So)

(So gentle) Yeah, yeah, yeah, yeah, ha
