

# Someone To Love

Johnny Gill

Baby, come over here  
I got something I wanna tell you (Something I wanna say)  
Hmm (Woo), you see, I've been searching for someone like you (You)  
All my life (Oh oh oh baby)  
And I'm glad you're here with me (Ah baby), alone  
Listen

It's a perfect time for us to settle down and  
And do the things that we both want to do, girl  
So let your hair down and relax for a while  
Now tell me where you've been for all my life

I've been looking for (Someone to love)  
All of my days, yeah, looking for (Someone to hold)  
And many a night, I've searched for (Someone to kiss)  
And I'm glad that I found you, yeah, oh yeah, yeah

Now turn the radio on, girl, let's love all night long, baby  
I wanna kiss your body and hear you call my name, yeah  
It's so amazing how long I've been waiting  
To hold someone like you, I'm glad you've rescued me

I've been looking for (Someone to love)  
Been searching for (Someone to hold)  
And every single night, I've searched for (Someone to kiss)  
Oh oh yeah, and I'm glad that I found you

(Can we break it down?)  
Every night (Every night), I search for (I search)  
Someone that I can hold on  
Every night, I pray that Heaven would send someone like you  
Every night, I search for (Every night)  
Someone that I can hold on (That I can hold on to)  
Every night, I pray that Heaven would send someone like you

I've been looking for (Someone to love)  
Ooh, someone that I can hold (Someone to hold)  
Someone that I can kiss (Someone to kiss)  
And I'm glad that I found you  
So glad I found you  
Now, forever I'm down with you  
(Someone to love)  
Oh... (Someone to hold)  
Someone I can hold (Someone to kiss)  
Lady, hey, and I'm glad that I found you, baby  
You, baby, listen  
I've been looking for (Someone to love)  
I've traveled all around theh world searching for somebody  
(Someone to hold)  
And I'm so glad that I found me somebody  
(I've been looking for someone to kiss)  
Oh
