

# Where No Man Has Gone Before

Johnny Gill

If love is a thought in the back of your mind  
I'm sure I can find it  
In the in love place in the house, gonna turn it out  
Gonna love you all over, gonna make you scream and shout

I wanna love you where no other man has gone before  
Let me go there  
Where no man's gone before  
Please let me love you where no other man has gone before  
Just show me where  
Let me go there

Unlimited affection, coming from all directions  
Round and around, in and out, up or down  
Tell me what you want, and I'm willing to give it to you  
Just teach me all the little do and don'ts  
'Cause I don't wanna waste a stroke...woo!

I wanna love you where no other man has gone before  
(Where no man's gone before)  
Let me go there (Take me there)  
Where no man's gone before  
Please let me love you where no other man has gone before  
(All you gotta do is take me by the hand)  
Just show me where  
Let me go there (And I'll take you there, ah yeah)

In the in love place in the house, gonna turn it out  
Gonna love you all over, gonna make you scream and shout

From the bottom to the top  
Even around the middle, it's all good 'til the last drop  
Explore the ways, shell of ecstasy  
This one's for you, girl, it's on me, my treat  
Just show me once, you don't have to speak  
A pointing lane proper, that's fine with me

I wanna love you where no other man has gone before  
Let me go there (Send me there)  
Where no man's gone before (Oh, just lead me by the hand)  
Please let me love you where no other man has gone before  
(Anywhere that you want, lead me there)  
Just show me where (Take me there, show me where)  
Let me go there (And I'll touch you there)

Look here...

In the in love place in the house, gonna turn it out  
Gonna love you all over, gonna make you scream and shout  
(Come on, come on, come on, come on)  
In the in love place in the house, gonna turn it out (Yeah)  
Gonna love you all over, gonna make you scream and shout

In the in love place in the house, gonna turn it out  
I'm gonna look you all over, gonna make you scream and shout  
In the in love place in the house, gonna turn it out  
I'm gonna look you all over, gonna make you scream and shout

I wanna love you where no other man has gone before  
Let me go there  
Where no man's gone before  
Please let me love you where no other man has gone before  
Just show me where (Take me there)  
Let me go there

I wanna love you from head to toe  
Make you understand that I know  
The right place to pet you  
Oh, the right place to feel you  
Oh, I wanna take you places...

Please let me love you where no other man has gone before  
Just show me where  
Let me go there

Ooh...

In the in love place in the house, gonna turn it out (Come on)  
I'm gonna look you all over, gonna make you scream and shout  
(Come on, come on, come on, come on)  
In the in love place in the house, gonna turn it out (Yeah)  
I'm gonna look you all over, gonna make you scream and shout

In the in love place in the house, gonna turn it out  
I'm gonna look you all over, gonna make you scream and shout...
