

Cracking Up

Johnny Hates Jazz

We're locked away
We're locked away
So please forgive us if we're cracking up

We're locked away
We're locked away
So please forgive us if we're cracking up

We're locked away
We're locked away
So please forgive us if we're cracking up

We're locked away
We're locked away
So please forgive us if we're cracking up

We're locked away
We're locked away
So please forgive us if we're cracking up, cracking up

We're locked away
We're locked away
So please forgive us, I feel we're cracking up

We're locked away
We're locked away
So please forgive us, so please forgive us

We're locked away
We're working night and day

Shattered dream, shattered dreams
I feel like I could run away, run away

Oh, I, I don't wanna be a hero
