

Don't Stop the Music

Johnny Hates Jazz

Every song we sing, every melody we play
Never disappears, they will always resonate
It's a harmony that you and I create
Don't let it fade away

Every beat we share, every word and every phrase
Is like a drop or rain in an ever-growing wave
There is so much love for you and I to make
Now hear me when I say

Don't stop the music
Life is a dance floor so let's use it
Baby baby make it a think of beauty
Don't stop the music

Like a rhapsody, you make me want to cry
And like a symphony, you make me want to fly
We're a single voice when our bodies intertwine
The magic never dies

Don't stop the music
Life is a dance floor so let's use it
Baby baby make it a think of beauty
Don't stop the music

Play on
Let it play on
Play on

Don't, don't

Don't stop the music
Life is a dance floor so let's use it
Baby baby make it a think of beauty
Don't stop the music

Don't stop the music
Life is a dance floor so let's use it
Baby baby make it a think of beauty
Don't stop the music

Play on
Let it play on
Play on
