

# Keep Me In Mind

Johnny Hates Jazz

Take a look at the world outside  
Tell me do you see  
Some lonely people looking back  
That's how it seems to me  
Now, you hide in your shell  
You're caught in a spell  
And it won't break until you

Reach out  
And you will find  
I'm standing behind you when you fall  
So if it's love  
That you're looking for  
Keep me in mind

There's a dark cloud in your sky  
It's about to break  
So open up and let the rain come down  
Don't be afraid  
'Cos now, it's easy to tell  
You're caught in a spell  
And it won't break until you

Reach out  
And you will find  
I'm standing behind you when you fall  
  
So if it's love  
That you're looking for  
Keep me in mind

## Instrumental

Now it's time to be strong  
To move further on  
But you'll never be sure until you

Reach out  
And you will find  
I'm standing behind you when you fall  
So if it's love  
That you're looking for  
Keep me in mind

Reach out  
And you will find  
I'm standing behind you  
When you fall  
So if it's love  
That you're looking for  
Keep me in mind.
