

# Love the Light

Johnny Hates Jazz

I feel the pain of everyone  
Who never gets to see the sun  
Whose cries for help have gone unheard  
And hope becomes an empty word

I feel the sorrow everyday  
'Cause innocence has passed away  
When someone said "I have dream"  
Now money talks and money sings

But I love the light  
I love the light  
Ain't it time we learn to shine and  
Cast out the night  
I love the light  
I love the light

I hate the way the powerful  
Profit from the vulnerable  
They rule the World with sticks and stones  
And build their mansions out of bones

I want to cry each time I hear  
Another species disappears  
I want to scream, I want to shout  
It feels like time is running out

But I love the light  
I love the light  
Ain't it time we learn to shine and  
Cast out the night  
I love the light  
I love the light

'Cuz I love the light  
I love the light  
Ain't it time we learn to shine and  
Cast out the night  
I love the light  
I love the light
