This Time

Johnny Lee

This time, we're really breakin' up
This time, we've said way too much
This time's for all the times
How about this time?

This time, there'll be no goodnight kiss
This time it's forever
This time I find that I'm
Really losin' you

My heart is broken now
It really doesn't matter anyhow
Now that you've gone away
I only live from day to day

This time, there'll be no goodnight kiss
This time it's forever
This time I find that I'm
Really losin' you

This time, we're really breakin' up
This time, we've said way too much
This time I find that I'm
Really losin' you
