

We Are Invincible

Johnny Logan

Leave a candle in the window
Shine a light into the dark
Something wonderful the world can clearly see
Let this song into your heart
There's a voice beneath the silence
I cry for help to understand
It's reaching out to every woman and every man
It's time to lend a helping hand

We are beautiful and we are proud
We have the courage to shout out loud
We are mothers, we are daughters
We are fathers, we are sons
We are invincible when we are one

There are stars up in the heavens
Shining brightly in the sky
And there are angels who remind us every day
They share that love with you and I

We are beautiful and we are proud
We have the courage to shout out loud
We are mothers, we are daughters
We are fathers, we are sons
We are invincible when we are one

So let's help the world to understand
The power of love that's in its hands

We are beautiful and we are proud
We have the courage to shout out loud
We are mothers, we are daughters
We are fathers, we are sons
We are invincible when we are one

We are beautiful and we are proud
We have the courage to shout out loud
We are mothers, we are daughters
We are fathers, we are sons
We are invincible when we are one
We are invincible when we are one
We are invincible when we are one
