Dharma kids
You're coming alive too fast
Burning ambition
The ghosts in your eyes look back
To all exist
Becoming to know the one
Lost in illusion
Losing and on the run

The wheel is turning and I say love
The way we're burning now, I say love
The wheel is turning and I say love
The way we're burning now, I say love

To all is bliss
Eternal to know the one
High on illusion and losing
The world goes on
Samadhi kids
You're coming around too fast
Your children have risen
The fear in your eyes looks back

The wheel is turning and I say love
The way we're burning now, I say love
The wheel is turning and I say love
The way we're burning now, I say love

The wheel is turning and I say love
The way we're burning now, I say love
