

Human

Johnny Marr

When the day has come
Feels like you don't know love
And you need someone
Get lost in the sun
There you go
You couldn't fake the game
But your face it shows
Everything you know

It's just human when you try
Just too human when you cry
Win or lose, you realise
'Cause better's gotta come yeah, yeah

With the dawn it comes
Feels like you're holding on
And you need someone
Talkin' to the sun
There you go
There's nothing in your way
But in you face it shows
Every place you go

It's just human when you try
Just too human when you cry
Win or lose, you realise
'Cause better's gotta come yeah, yeah
It's just human deep inside
Just too human in your mind
Whatever you do you better try
'Cause better's gotta come yeah, yeah

It's just human when you try
Just too human when you hide
Whatever you do you realise

'Cause better's gotta come yeah, yeah
