

# Jeopardy

Johnny Marr

I've got away with the flip side of life  
I react with distractions from the facts  
Wonderin' why, why, why  
I've got all reason abandonin' me  
Our moment comes and goes  
Oh, pull me closed  
Step into acceleration

Oh, j-jeopardy  
Oh, you live in me  
Oh, we play our games and we know how to make a memory

I've got all reason confounding my [?]  
Resist with abstraction to the facts  
Makes me go a little light  
I'll take my fortune and fallin' apart  
I'm a gone accumulator  
So pull yourself together  
Stand up to initiation

Oh, j-jeopardy  
Oh, you live in me  
Oh, we play our games, our games, insane  
And we know how to make

Something to last, we got to fight  
And where we're goin' nobody knows  
Now's the time, we're always waiting  
It's now or never!

We play our games, our games, insane  
And we know how to make a memory

Oh, jeopardy  
You live in me  
Deliver me  
You live in me
