

Rubicon

Johnny Marr

When you wanna go home
And you need to turn back
Turn it all around
Turn everything around
Just understand
Like a child
All the pictures in your mind
Don't explain
Don't let the good slip away
Don't let the good slip away

And is this the way?
And is it the way?
It's all coming, it don't stop coming to you
It's all coming, it don't stop coming to you
It's all coming, it don't stop coming to you

Volition, invention
(It's all coming, it don't stop coming to you)
Break into creation
Volition, predication
(All coming, it don't stop coming to you)
Make it through creation
(It's all coming, it don't stop coming to you)

Cross over
You already have and you already know
(All coming, it don't stop coming to you)
All coming, it don't stop coming to you)
Cross over
You already have and you already know
(All coming, it don't stop coming to you)
