

Spiral Cities

Johnny Marr

Fall in all in détournement
Follow illumination
The days are glowing up
Made for a life in moments
Cover all the sky with lights
The way is paved for
Raging true love confusion
Senses are blowing up miles high
Get mixed up, get danger
Mesmerized in the scattered tribes

On the vertical streets we go up (up) (up, up)
With our eyes set to the glow of love (love) (up, up)
In the spiral cities let's get lost ('cause)
We can't be stopped

Follow all in procession
Walk in illumination
The days are glowing up
Made for a life in moments
Avenues paved for danger
Our eyes are open

On the vertical streets we go up (up) (up, up)
With our eyes set to the glow of love (love) (up, up)
In the spiral cities let's get lost ('cause)
We can't be stopped

Senses are blowing up miles high
Get mixed up, get danger
Mesmerized in the scattered tribes

On the vertical streets we go up (up) (up, up)
With our eyes set to the glow of love (love) (up, up)
In the spiral cities let's get lost ('cause)
We can't be stopped

In the spiral cities we go up (up) (up, up)
