Mother natures been good to me
Thats why I'm sittin' in this cherry tree
But it's alright, it's alright
It's not so bad, I'm just a touch away

The shady lady from shady lane
Is lying in my bed again and it's alright
It feels good, it's not so bad
When she's just a touch away

Nothing much is all I ask
And it's alright, okay, yes
Light as a feather, oh, yes

Like a rosebud when the sun is high
She opens up before my eyes
And the light falls on her wet skin
It's alright, I'm just a touch away

Nothing much is all I know
And it's alright, oh, yes
Light as a feather
And just a touch away

Put a finger to her lips again
She cries with pleasure
Cries with pain and it's alright
It feels good, it's not so bad
We're just a touch away

Nothing much is all I know
Not too fast, not too slow
And it's alright, soft as a feather
And just a touch away
