

Judy

Johnny Mathis

Judy
Don't leave me
Please believe me
I love you only

And

Judy
Girl hold me
Just like you told me
Don't leave me lonely
(cause I love you only)

I woke up early this morning
And judy was gone
Why did you leave
I don't care just come home
Girl I will search for you
Every night and day
I'll find you
And get you back some way

What happened to all those promises you made
Everything you asked every command was obeyed
Was it my fault
You know I really didn't know
Wont you think about it before you go
