

## Sail On White Moon

Johnny Mathis

Your world was not that kind  
I ever thought I'd find  
Myself to be a part of  
Oh, but here I stand  
In the middle of a foreign land  
A stranger with love in his heart

Our love has no eyes  
It comes in no disguise  
It's free for those who want to share  
And I've chosen you to be mine  
So girl let's not waste time  
Let's no worry 'bout what they say  
Let's take care of what is ours today

Sail on white moon across the dark and starry sky  
Sail on white moon, our love won't die  
But girl, you must realize  
There'll be a difference in our lives  
We're gonna be rejected  
Oh, that's to be expected  
...
