

Wendy

Johnny Mathis

Wendy, you're everything I thought love would ever be
You've become my life, my world, you're the part of me
Don't you ever leave, promise me
Say you'll always be here with me, Wendy

I knew it from the very first time we ever met
You are the kind of woman a man can never forget
And it's proved to me every day
It's shown to me in every way, Wendy

I get such a kick out of loving you
Like a kid with a brand new toy
I never met anyone quite like you
You're something I can enjoy

And when I'm alone your face is all I can see
My house is not a home if you're not here with me
Say you'll always be a part of me
I'll be good to you, wait and see, Wendy
