You're a Special Part of Me

Johnny Mathis

Silence is the sound
When there is no love to believe in
Then you smiled
I watched
And suddenly I saw where dreams begin

Your eyes sweep over me
Like the light all over me
All the shadows of the past disappear
The moment of forever is here

And you're a special part of me
You get to the heart of me
You're a special part of me now

You're a special part of me
You get to the heart of me
You're a special part of me now

[Johnny Mathis:]
Wishes in the wind are coming through
When you are beside me
Seeing through the dark
Now that I have your love to guide me
(Mmm, please guide me)

And your remedies and your touch
And you're moving me right up
And the world is somewhere down below
I'm face to face with love and I know that

You're a special part of me
You get to the heart of me
You're a special part of me now

You're a special part of me
You get to the heart of me
You're a special part of me now

Oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh

[Angela Bofill & Johnny Mathis:]
And your remedies and your touch
And you're moving me right up
And the world is somewhere down below
I'm face to face with love and I know that

You're a special part of me
You get to the heart of me
You're a special part of me now

You're a special part of me
You get to the heart of me
You're a special part of me now

You're a special part of me
(Just a little bit)
You get to the heart of me
(Just a little bit)
You're a special part of me now

You're a special part of me
(Just a little bit)
You get to the heart of me
(Just a little bit)
You're a special part of me now

You're a special part of me
You get to the heart of me
You're a special part of me now

You're a special part of me
You get to the heart of me
You're a special part of me now

You're a special part of me
(Just a little bit)
You get to the heart of me
(Just a little bit)
You're a special part of me now

You're a special part of me
(Just a little bit)
You get to the heart of me
(Just a little bit)
You're a special part of me now
