

## goodbye4now (interlude)

Johnny Orlando

My heart's heavy your heart's heavy too  
Wish you met me in a year or two  
What do I do?

Are we only being young  
Holding on to us because  
I never learned infatuation isn't the same thing as love?

Oh my God look at your face  
Gonna hurt to watch that smile fade  
Oh no you think it's fate  
But your heart's gonna break

I know we'll figure this out  
We'll find our way back somehow  
This is goodbye for now
