

How Can It Be Christmas

Johnny Orlando

White chocolate lattes
Snow on the ground
Mistletoe hallways but you're not around
Seems like everyone got somebody
When you're alone

December is freezing, that's nothing new
The only thing different, there no me & you
Seems like everyone got somebody
When you're alone

And it's not the date or time of year
It's all the ones you love all here
No it's not the movies or the songs
It's only you I want

How can it be Christmas time if we're not together
Cuz baby it was Christmas time when we fell in love
The bed was by the fire, the tree was wrapped in lights
The air was so cold I was holding you tight
How can it be Christmas time if we're not together

Late to the airport our flight was delayed
Baby we'd get there sooner if we had a sleigh
Something bout holidays make every memory sweet

And it's not the date or time of year
It's all the ones you love all here
No it's not movies or the songs
It's only you I want

How can it be Christmas time if we're not together
Cuz baby it was Christmas time when we fell in love
The bed was by the fire, the tree was wrapped in lights
The air was so cold I was holding you tight
How can it be Christmas time if we're not together

I wish there was somehow
I could hold you hold close
I'm all out of wood and the fire is low
Of all of the presents underneath the tree
Oh I'd trade them all to have you next to me

How can it be Christmas time if we're not together
Cuz baby it was Christmas time when we fell in love
The bed was by the fire, the tree was wrapped in lights
The air was so cold I was holding you tight
How can it be Christmas time if we're not together
How can it be Christmas time if we're not together
How can it be Christmas time if we're not together
