

# Let Go

Johnny Orlando

Why you acting so shy  
Cause' girl there's no reason to hide  
So let me take you out  
What is there to think about  
I wanna go where we only dreamed of

I just wanna fly away  
Cause' we don't need to stay  
It doesn't matter where we end the day

We gotta fly away and  
Let go  
Just let go  
We gotta fly away and let go  
Just let go  
We gotta fly away and let go

We can go anywhere  
And do anything  
Without a single worry  
Going so high that we can't even see  
We're gonna jump higher  
Until we get tired  
Cause' nothing can stop us now  
Deep down we inspire  
Just like burning fire  
I promise I'll never let you down

I just wanna fly away  
Cause' we don't need to stay  
It doesn't matter where we end the day

We gotta fly away and  
Let go  
Just let go  
We gotta fly away and let go  
Just let go  
We gotta fly away and let go

We can be flying high in the sky  
Lighting up the night  
Seeing the truth  
Every single time

Its pretty crazy how we got here  
Can you imagine if you lived your life without any fear  
Just this morning  
You were sitting all alone  
But now we got the world and we're not going home  
Some people might stop and stare  
But do you even really care  
Girl we're the perfect pair  
And the Earth is still spinning  
So I can't stop grinning  
Baby can't you feel  
This is just the beginning

I just wanna fly away  
Cause' we don't need to stay  
It doesn't matter where we end the day

We gotta fly away and  
Let go  
Just let go  
We gotta fly away and let go  
Just let go  
We gotta fly away and let go  
Just let go  
(Jump jump jump)  
We gotta fly away and let go  
Just let go  
We gotta fly away and let go  
Just let go
