

## Ain't She Something Else

Johnny Paycheck

Don't you love the way she talks to you  
When she's feeling woman warm  
Don't it make you feel so good  
Just to know she's yours all by yourself

Don't you like to see the sun go down  
When she's lying close to you  
Can't you feel her all around  
And when she loves you ain't she something else

Ain't she some kind of lover in the morning  
Can't your arms feel the warmth where she slept  
Ain't she just all that you have ever wanted  
And when she loves you ain't she something else

Don't you like the way she clings to you  
And loves you 'til there's nothing left  
Tell me don't her lips taste good  
And when she loves you ain't she something else

Ain't she some kind of lover in the morning  
Can't your arms feel the warmth where she slept  
Ain't she just all that you have ever wanted  
And when she loves you ain't she something else  
And when she loves you ain't she something else
